WEEKLY OPERATING NOTICE

CONTAINING

TEMPORARY SPEED RESTRICTIONS

TEMPORARY ENGINEERING WORKS

SIGNALLING AND PERMANENT WAY ALTERATIONS

GENERAL INSTRUCTIONS AND NOTICES

SATURDAY 6 FEBRUARY

T 0

FRIDAY 12 FEBRUARY 1988

INCLUSIVE

Trainmen must pay particular attention to works contained in this notice and keep a good look-out for handsignals which may be exhibited in accordance with the Rules and Regulations.

Work at places other than those mentioned may be in progress and Drivers must be on the look-out and be prepared to stop or run at reduced speed when, and where, handsignals may be exhibited.

SECTION A

TEMPORARY SPEED RESTRICTIONS

(Until further notice unless otherwise specified)

Warning Boards and Indicators provided unless otherwise shown.

† Indicates that the Warning Boards and Indicators will be moved as the work progresses. Where two speeds are shown for a restriction e.g. $\frac{20}{40}$ the

Rule Book, Section U, Clause 1.2 applies.

- ★ INDICATES HST TRAINS MAY RUN AT 10 M.P.H. FASTER THAN THE INDICATED WARNING SPEED
- ** INDICATES HST TRAINS MAY RUN AT 20 M.P.H. FASTER THAN THE INDICATED WARNING SPEED

SECTION C

SIGNALLING AND PERMANENT WAY ALTERATIONS

DETAILS OF WORK REFERRED TO IN SECTION B

SUNDAY 7 AND MONDAY 8 FEBRUARY - BETWEEN BROOMFLEET AND GILBERDYKE

From 00 30 (Sun) - The Up Slow line will be taken out of use.

The adjacent Up Fast will become the Up Main line.

New Up Main Platforms will be brought into use at Broomfleet and Gilberdyke Stations.

The Up Slow Platform at Gilberdyke Station will be used as a temporary Bay Platform until the new Up Main Platform is commissioned on Monday 8 February.

The facing connection - Up Main to Up Slow (Broomfleet) and the connection at Gilberdyke between the former Up Slow and the Horse Dock Siding will be secured for through running to/from the Horse Dock.

Signalling Alterations

Gilberdyke

The right-hand bracket post on the Up Main Home Signal Gantry will be abolished. The remaining semaphore (17 feet above rail level) on the straight post (former Up Main Home to Up Branch) will become the Up Main 1st Home Signal 440 yards before reaching the new Up Main 2nd Home described below.

A new Up Main 2nd Home right-hand bracket signal (19 feet above rail level) with the Up Main 2nd Home to Up Branch on the straight post 18 feet above rail level, will be provided at the signal box end of the new Gilberdyke Up Main Platform and 141 yards before reaching the signal box.

All signals associated with the former Up Slow line will be abolished.
(49)

DETAILS OF WORK ALREADY CARRIED OUT

ALDWARKE JUNCTION

An illuminated Permanent Speed Restriction Warning Indicator has been provided on the Up Pontefract line 980 yards before reaching the 40m.p.h. permanent speed restriction at 164% mile post.

An A.W.S. permanent magnet has been provided 200 yards on the approach side of the Warning Indicator. (See Section 'D').

(New Item) (49)

DETAILS OF WORK ALREADY CARRIED OUT - continued

DONCASTER SOUTH YORKSHIRE JUNCTION

A temporary level crossing has been brought into use across the Down/Up West Slow No. 2 line at 155m 56chs (adjacent to Bridge No. 325).

The crossing is protected by hand-operated lockable barriers. A crossing keeper (in telephone communication with Doncaster Power Signalbox) is in attendance.

(UFN)

YORK STATION

Platform lines No. 4 and No. 6 and the Middle Road together with all associated signals or signal routes have been abolished.

(46)

BETWEEN YORK YARD NORTH AND SKELTON

Up Arrival Lines 1 & 2 and the Up Shunting line have been taken out of use pending removal. All associated signals or signal routes have been abolished.

(46)

YORK TRAIN CREW HOLDING SIDINGS

The Through Road and No. 1B Road has been secured out of use until Sunday 28 February.

(48)

STRENSALL

Strensall level crossing gates at 6m. 48chs. have been removed pending installation of lifting barriers.

Signalling Alterations

The Down and Up Home and Distant signals are temporarily maintained at Danger/Caution and hand signalling is in operation.

The trailing crossover has been temporarily secured out of use in the normal position and the associated ground disc shunting signals have been abolished.

(48)

DETAILS OF WORK ALREADY CARRIED OUT - continued

* * BETWEEN SOUTH ELMSALL AND SOUTH KIRKBY JN

*

Up Doncaster signal L656 and Down Doncaster L657 have been converted from automatic to controlled signals.

(46)

BETWEEN GOOSE HILL JUNCTION AND ALTOFTS JUNCTION

The Down and Up Slow lines between Goose Hill Junction and Altofts Junction, and the following connections have been secured out of use pending removal:-

Goose Hill Junction

Double junction between the Down and Up Main and Down and Up Slow lines.

Trailing crossover between the Down and Up Slow lines and the associated slip connection to the Down Sidings. (The associated ground disc shunting signals have been abolished).

Altofts Junction

Crossover between the Down and Up Slow lines.

Both crossovers between the Up Slow and Down Fast.

Double junction between the Down and Up Slow lines and the Down and Up Midland Main lines.

The following Goose Hill Junction Signals have been abolished:-

Down Main 3rd Home to Down Slow (left-hand bracket signal)

Down Slow Home.

Down Slow Starting with Altofts Junction Down Slow Distant below. Up Slow 1st Home with the Up Slow 1st Home to Up Main on the left-hand bracket

Up Slow 2nd Home to Up L & Y (right-hand bracket signal).

Altofts Junction Signalling Alterations

Down Slow signal AJ985 (to Down Midland Main or to Down Branch), and Up Slow AJ992 signal are maintained at RED.

All signal routes reading towards the Down and Up Slow lines have been disconnected.

(48)

DETAILS OF WORK ALREADY CARRIED OUT - continued

* * CASTLEFORD EAST JUNCTION - LEDSTON - ALLERTON MAIN

Ledston signal box, together with all signals worked therefrom has been abolished.

The throughout line between Castleford East Junction and Allerton Main is now worked in accordance with the "ONE TRAIN WORKING" Regulations (the Train staff is retained in Castleford Station signal box when not in use).

The following signals have also been abolished:-

Castleford Station Down Branch Starting (C8) Castleford Station Up Branch Home (C9) Up Branch Distant.

A reflectorised Up Branch Distant board has been provided on the site of the former Up Branch Home signal C9. An A.W.S. track inductor has been provided 200 yards before reaching this Distant board.

Automatic Warning System

The inductor situated between the Up Branch 3-aspect signal C10 and the junction points between the branch line and Down Normanton, have been resited 200 yards on the approach side of signal C10.

This inductor and the one 200 yards before reaching the reflectorised Distant board are not suppressed in the Down direction, but an A.W.S. Cancel board has been provided 200 yards after passing each inductor in the Down direction.

(46)

SHERBURN JN

The facing connection from the Up Main to Down Branch (towards Gascoigne Wood) at 13m. 22chs. has been reinstated.

(Amended) (48)

MOORTHORPE STATION

The main to main crossover at llm. 35chs. has been temporarily removed and plain line installed.

(UFN)

DETAILS OF WORK ALREADY CARRIED OUT - continued

LEEDS STATION

The crossover (half of scissor crossover) between Platform 8 West and the Through Road (East) has been abolished.

Signalling Alterations

The route indicators associated with Through Road (East) signal L151 and Platform 8 West L146 have been abolished.

(47)

* * BEMPTON LEVEL CROSSING AT 34m 43chs

*

Bempton Gate Box and all signals worked therefrom have been abolished. The crossing has been converted to one with automatic half barriers. Telephone communication has been provided between the crossing and Bridlington Quay signal box.

Signalling Alterations

A new Up direction 2-aspect (Red/Green) colour light automatic signal plated BQ52 has been provided 27 yards before reaching the level crossing for the purpose of regulating stopping trains at Bempton Station.

A new Up direction 2-aspect colour light Distant plated BQ52R has been provided 1500 yards before reaching new BQ52 signal.

(46)

* * BETWEEN GILBERDYKE AND BROOMFLEET

*

The Down Slow line has been taken out of use pending removal. The adjacent Down Fast line has become the Down Main.

All signalling associated with the former Down Slow line has been abolished. The facing connection - Down main to Down Slow (Gilberdyke) and Down Slow to Down Main (Broomfleet) has been secured out of use in the normal position pending removal.

New Down Main platforms have been brought into use at Gilberdyke and Broomfleet Stations.

(46)

SECTION D

GENERAL INSTRUCTIONS AND NOTICES

A thick vertical line denotes new or amended items.

* * Items marked thus will not appear in future issues and a note must be * taken of them by all concerned.

MISCELLANEOUS NOTICES

REPRINT OF RULE BOOK AND OTHER ASSOCIATED OPERATING PUBLICATIONS

- 1. The Rule Book (BR 87109) dated 1st October, 1972 and the associated Extracts Book (BR 87109/4) will be superseded by revised publications which will come into operation on Saturday 4 June, 1988. The revised Rules will be issued wholly or partly in the three publications shown under:
 - a) The complete Rule Book (BR 87109) containing Sections 'A' to 'U' inclusive.

This is to be issued to Drivers, Guards, Shunters, Signalmen, S & T Technicians and Persons in Charge of Stations, Depots or Yards. It is also to be issued to any person appointed as a Pilotman, Person in Charge of a Possession or Engineering Supervisor in charge of work within a possession, or any person required to be in charge of work undertaken in Section 'S' or Section 'T'.

(b) The Rule Book, Sections 'A, 'B' and 'P' (BR 87110)

This is to be issued to other employees who undertake duties on or near the line, including Crossing Keepers, Handsignalmen, Lookoutmen, Points Operators and any person in charge of a platform.

c) The Rule Book, Section 'A' (BR 87110/1)

This is to be issued to employees who are not required to undertake duties on or near the line.

These publications will be accompanied by Acknowledgement Slips/ Explanatory Leaflets drawing attention to the principal changes in each as follows:-

- BR 87109/41 Acknowledgement Slip/Explanatory Leaflet for the complete Rule Book.
- BR 87110/2 Acknowledgement Slip/Explanatory Leaflet for the Rule Book Sections 'A', 'B' and 'P'.
- BR 87110/3 Acknowledgement Slip/Explanatory Leaflet for the Rule Book Section 'A'.

MISCELLANEOUS NOTICES - continued

REPRINT OF RULE BOOK AND OTHER ASSOCIATED OPERATING PUBLICATIONS - continued

- 2. Consequential amendments will also be made to the following publications. These will also apply from Saturday 4 June, 1988 and will be issued as follows:-
 - (a) General Appendix (BR 29944)

An 'Alterations and Additions - Issue No. 9' (BR 29944/36) will be published.

(b) Regulations for Train Signalling and Signalmen's General Instructions (BR 30062)

The following will be re-issued incorporating alterations issued hitherto and consequential amendments arising from the Rule Book reprint:-

BR 30062 -

Signalmen's General Instructions

Regulations for Train Signalling:-

BR	30062/1		by the Track Circuit Block System
BR	30062/2	-	by the Absolute Block System
BR	30062/3	_	on Single Lines by the Electric Token Block System
BR	30062/4	_	on Single Lines by the Tokenless Block System
BR	30062/5	_	Instructions in respect of Trains conveying Out-of Gauge

Loads

- 3. Distribution of these publications from the Printers will begin in January, 1988. They should be made available to the employees concerned immediately upon receipt at the nominated locations.
- 4. These publications are being issued well before the introductory date of Saturday 4 June, 1988. It is essential that employees familiarise themselves with the revised Rules, Regulations and instructions in readiness for their introduction.

(UFN)

MISCELLANEOUS NOTICES - continued

CLASS 141, 142, 143 AND 144 DIESEL UNITS

On routes where the above trains are authorised to run, if a train does not pass over a section of line for more than three hours and the first train after that period is a class 141, 142, 143 or 144 train the Signalman must:-

- 1. Specially watch the passage of the train over each section of line.
- 2. Not permit any conflicting or following movement and in addition, on a route setting panel, not cancel the route until he is satisfied that the train has passed clear.

The above must be applied on the Temple Hirst Jn. to Selby line irrespective of the time since the last train.

(UFN)

WOMBWELL STATION

Between 08 00 and 17 00 hours on Sunday 7 February - Drivers of trains stopping at the Down platform must work to the instructions of handsignalmen and/or notice boards whilst platform repairs are being carried out.

LEEDS STATION

From 07 00 Sunday 7 February - Platform repairs will be in progress on Platforms 6 and 8, until further notice.

Drivers of trains stopping at Platforms 6 or 8 must work to the instructions of Handsignalmen/notice boards whilst work is being carried out.

(UFN)

LEEDS STATION

From 08 00 Monday 9 February - In connection with engineering work Platform 4 will be shortened by approximately 180 feet at the buffer stop end until further notice.

Drivers of trains using Platform 4 must work to the instructions of Handsignalmen/notice boards whilst work is being carried out.

(UFN)

MISCELLANEOUS NOTICES - continued

GILBERDYKE AND BROOMFLEET STATIONS

A new 50 metre section of platform has been brought into use on the Down Main line at both <u>Gilberdyke</u> and <u>Broomfleet</u> stations.

Drivers of stopping trains must stop at the board provided at each location.

Passengers on Down trains wishing to alight at either Gilberdyke or Broomfleet must be advised to travel in and alight from the first two coaches of multiple unit trains or the first coach of locomotive hauled trains.

Guards must advise passengers who are to alight at either location that they must take care when alighting on to the temporary platforms.

(UFN)

MARSHGATE DEPOT

The Sidings into Marshgate Depot are now protected by gates. Prior arrangements must be made with the gate keeper (tel. ext. 027-2554) for access into the depot.

(47)

WAKEFIELD WESTGATE STATION

Platform repairs/construction work are in progress on the Down Platform (No. 2), until further notice.

Drivers of trains stopping at the Down Platform must work to the instructions of Handsignalmen/notice boards whilst platform work is being carried out.

(UFN)

BETWEEN WAKEFIELD KIRKGATE AND GOOSE HILL JN

Open-cast blasting is taking place at the former St. John's Colliery between $10\ 00$ and $16\ 00$ each day.

Blasting may be heard or the effects seen, but this will not affect the running of the railway.

(UFN)

NORMANTON STATION

Drivers of trains stopping at Normanton Station must follow the instructions of handsignalmen and/or notice boards whilst demolition work is in progress.

(UFN)
